## Age of Cats in Human Years

When is a cat considered old? By veterinary standards, any cat over the age of seven to 10 years is a senior cat. Of course, with proper health care, many cats can live into their late teens or early twenties. Check your cat's age against the table below to see how old he is in human years.

Cat Age	Equivalent Human Years	Cat Age	Equivalent Human Years
1	15	11	60
2	24	12	64
3	28	13	68
4	32	14	72
5	36	15	76
6	40	16	80
7	44	17	84
8	48	18	88
9	52	19	92
10	56	20	96

Table taken from the Feline Advisory Bureau.
